tor Mei here.

So I decided to translate this on a whim. Also because YTTD is just stuck in my head and I needed to do something about it. Please take note that this isn't the genre that I usually translate, so it's a new experience for me. And I won't be posting this from my one-man group since it just feels wrong lol (read: local BL translator works with death game survival genre).

As a translator, I prefer to leave honorifics as is, but for this manga I decided to follow vgperson's naming conventions so you're more familiar with it. I'm open to suggestions so you can leave your thoughts in the comments!

If anyone wants to help out (with translating, cleaning proofreading, etc), or if a better group/individual who's well-versed at this genre wants to take over this

(Or shoot me a message in MangaDex!)

Otherwise, I'll continue editing this myself for now.

Updates may not be consistent, as I'm very haphazard.

Thanks for reading!
